LIST OF MACHINERY WITH CONNECTED LOAD (HP)

(For MPCB – Consent to Establish / Consent to Operate)

The proposed unit shall install machinery required for processing segregated organic / agricultural waste into biomass pellets, briquettes, biochar, and liquid organic fertilizer (LOF).

The list of machinery along with individual motor ratings (HP / kW) and total connected load is provided in the table below.

The major machinery proposed includes:

	Plant and machinery	Units	Capacity	Power (HP)
1	Shredder for agriwaste	1	0.5 TPH	5
2	Shredder for wood	1	0.5 TPH	5
3	Shredder for tender coconut husk	1	0.5 TPH	10
4	Dewatering machine	2	0.5 TPH	20
5	Small Dryer Cm Mixer	1	0.3 TPH	8
6	Flash Dryer with hot air Generator	1	0.5 TPH	30
7	Biomass Pellet Machine	1	0.5 TPH	15
8	Hammer Mill with dust collector	2	0.5 TPH	10
9	Briquette machines	2	0.5 TPH	37
10	Briquette machines spindles (Spares)	4		
11	Weighting Scale	2	500 Kg	1
12	screw Conveors	3	3 HP	9
13	Flexible spring conveyor	5	2 HP	10
14	Auto Sieving machine	2	0.5 TPH	10
15	Miscellaneous	1		
	Total Plant and Machinery			170

All machinery shall be:

- Installed inside the industrial shed
- Operated within rated capacity
- Provided with adequate air pollution control and noise control measures

The total connected electrical load of the plant shall be as per the sanctioned load obtained from the electricity distribution company.

No diesel generator (DG) set shall be used / DG set shall be provided only as standby (as applicable).

Note:
Actual machinery specifications, make, capacity, and motor ratings shall be as per the final procurement and installation details.
